AMUSEMENT NOTES.

HOWE'S PICTURES COMING.

Blackfeet Indians, Animal Studies, Marvelous Scenic Views.

Among the wondrous variety of scenery comprising Glacier National Park, which constitutes one of the big features of Lyman H. Howe's new production to be seen at the Auditorium next week Saturday, matinee and night, there is the widest latitude of choice to gratify any spectator's preference. There are mountains and peaks, living glaciers, and mirror-like lakes glistening like jewels of limpid depths, and other remarkable scenes in America's wilderness. The Blackfeet Indian reservation is at the eastern end of the park. It has been the home of the Blackfeet or Piegan Indians for centuries. They were one of the last tribes to come in contact with white men and in that portion of this same series depicting them as they really are, spectators will see that they still retain most of their primitive customs and manner of living.

The program will comprise a great diversity of other subjects, such as a torpedo boat struggling through a terrific gale on the high seas, through southern France, a flight on an aeroplane above and among the clouds, curious chemical formations showing how nature can surpass art, wintry days on dizzy Alpine heights, logging in Italy, the magnitude of the automobile industry in America, a study in natural science clearly depicting every detail of the movements of animals which ordinarily are too swift for the human eye to detect, new film fun by Howe's cartoonists, etc.

BELLOWS FALLS.

READY FOR CLEAN-UP WEEK.

C. W. Osgood Chairman of Chamber of Commerce Committee.

It is expected that the pastors of the village will speak in their sermons tomorrow of civic duties and thus will begin the third annual Clean-up week campaign. Plans have been made for activities to cover every day of the week and the prospects are that the movement will be as successful, if not more successful than those of previous years.

Committees have been appointed by the board of directors of the chamber of commerce, with C. W. Osgood as general chairman. These committees will be assisted by members of the Bellows Falls Women's club. On Wednesday afternoon an automobile tour of the town was made to look into any special places which might need extra attention during the week.

Monday is designated as Clean Up the Yard day and it is expected that from that morning until Saturday evening the citizens of this place will cooperate and make the campaign one which will cover every street and section of the town.

Women Will Be Supper Guests.

What probably will be the largest supper gathering in Bellows Falls is a long time will take place Monday evening in the Armory. It will be under the auspices of the chamber of commerce and the members will have the women of the town as their guests. An interesting program has been arranged.

President F. H. Babbitt will preside. The principal speaker of the evening will be Judge Henry Bosworth, one of the leading lawyers of New England, judge of the Springfield, Mass., police court and a director of the Boston & Maine railroad company. C. W. Osgood, general chairman of the Clean-up week committee, will speak on some phases of the work of the week. An orchestra will provide music and a double quartet of male voices will sing. It is expected that about 150 persons will attend. The affair will be the first meeting of the chamber to which women have been invited.

Miss Williams died suddenly the morning of March 25. According to the death certificate filed by Dr. W. P. Craig of Walpole, N. H., she died in Walpole of acute endocarditis. She lived the greater part of her life in Bellows Falls. She was a daughter of Mr. and Mrs. John H. Williams of Walpole.

Right on the Job.

In a public school one afternoon the teacher called up a junior class in English for instruction. "Bobby," said the schoolmarm, "do you know the meaning of the word 'indisposition'?" "Yes, ma'am," was the confident rejoinder of the youngest addressed. "Good," commented the teacher. "Give me a sentence containing the word 'indisposition'." "When you wants to fight," responded the boy, illustrating, "you stand in dis position."—Philadelphia Telegraph.

Still Doing Business STILL GOING TO DO IT

Banish from your mind the idea that this store is going to be closed. Far from it. It intends to remain what it is — headquarters in Brattleboro for Wall Paper, Window Shades, Crockery, Glass, Tin and Enamel Ware, Photographers' Supplies, etc. Its stocks never were larger—and they were bought previous to advances of the last few months. The benefits of this fact are yours for the asking. Prices will not be raised, although much of our China, Tinware and Enamel ware costs more in today's wholesale market than what we sell it for.

Important Meeting Called.

Notice is given by the general committee of the July 4 celebration last year of a meeting to be held in the town hall Tuesday evening to which all interested are urged to be present. The meeting is for the purpose of obtaining permission, if possible, from the citizens to use the proceeds of last year's celebration to aid in building the dining room and kitchen in the basement of the town hall, as planned by the T. G. R. village improvement society. The idea last year was at first to enlarge the town hall stage, and the proceed were voted for that purpose, but it seems to be the general opinion that the changes in the basement would be of more use and given more general satisfaction in the community.
